Introduction

IBM Video Learning Subscription

The IBM Video Learning Subscription is an ideal and inexpensive way for anyone to learn about the latest IBM products and technology by watching recordings of IBM web seminars, online classes, and TechXchange conference seminars.

These are technical videos that cover a broad range of topics at all skill levels in the areas of Artificial Intelligence, Automation, Data Analytics and Business Automation, IBM Cloud, IT Infrastructure, Security, and Sustainability.

New videos are being added continuously throughout the year.

Maximo Application Suite – License key terms

MAS AppPoints	Application Points (AppPoints) are used to track and enforce user entitlement and access across Maximo Application Suite.
License Key Center (LKC)	An IBM website from where you download and manage your license file.
Suite License Server (SLS)	The Suite License Service (SLS) stores and manages the Maximo Application Suite license. You upload the license file (pool of AppPoints) to the SLS server as part of the initial setup.
MAS License File	The license file is provided with your purchase of Maximo Application Suite. The login information to download the file from LKC is provided with your welcome letter.
Software Entitlement Key	The software entitlement key is a password to obtain the software. The software is in the form of container images, which gets automatically pulled/downloaded by OpenShift using the entitlement key available via MyIBM Container Software Library.
